

### CIRCO MOTION

Circo Motion chairs are designed to provide a universal solution for meeting and conference uses. They share a common design language with the original Circo conference chair but the proportions have been scaled to make them more applicable in use.

Circo's designer Justus Kolberg

worked closely with toolmakers and injection moulders to exploit the latest technical possibilities of a complex single piece frame.

### DIMENSIONS

### DESIGN

**Justus Kolberg**

Justus Kolberg has been running his own design studio in Hamburg since 1997 after completing his studies in industrial design at the Muthesius Academy of Fine Arts and Design in Kiel in 1990.

Justus has received numerous honors including the IF Hannover Product Design Award, the Red Dot Design Centrum NRW, the IDEA-Gold Industrial Design Excellence Award and the Japanese Good Design Award.

### STANDARD FEATURES

- 2" Hard wheel casters
- 3D Self-supporting mesh back
- Tubular steel frame
- Molded seat foam

- Choice of finish options available (See finish page)

### PERFORMANCE STANDARDS

- EN 16139:2013 L1
- GS Certificate
- ANSI/BIFMA X5.1:2001

### OPTIONAL FEATURES

- Casters for hard and soft floor coverings

### MATERIAL CONTENT

Components are constructed of the following

### RECYCLED CONTENT

Contains up to 11.50% of Recycled Material

### RECYCLABILITY

The range is 99% recyclable

### SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

#### -Reduce, Reuse and Recycle.

While recycling is the element which

receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

# REDUCE REUSE RECYCLE
