

Crate Divide

Design by Allermuir

A cube based modular storage system with a prime function to act as a room divider. Create spaces using the modular design of Crate.

Pre-built components can be connected together in-line or at right angles to create different zones within existing spaces.

Design Allermuir

Our team of talented in house designers is responsible for creating elegant, innovative furniture designs that not only look beautiful, but minimise the impact on the world around us.

Constantly exploring new product trends and keeping up to date with the latest innovations in technology and materials, our design team creates world class designs of the highest quality.

Standard Features

(* - Selected models only)
 Tubular Steel frame finished in Black powder coat
 Plastic glides with levelling adjustment

Optional Features

Tubular Steel frame available in a selection of colours
 Storage and Accessories

Dimensions

Environmental Performance

Material Content

Components are constructed of the following

Nylon 6

Steel

Recycled Content

Contains up to 50.00% of Recycled Material

Steel

Recyclability

The range is 99% recyclable
