

SENATOR

ELIOS

Elios is a range of slender and versatile chairs that are equally at home in meeting rooms, seminar and conference facilities, training rooms or restaurants. Moving seamlessly from one area to another in any location, this high density stacking chair is light both visually and

physically. Elios can achieve a stack of 40 un-upholstered chairs on its trolley, fitting comfortably through a standard doorway.

Designed by Senator

DIMENSIONS

DESIGN

Senator

Our team of talented in house designers are responsible for creating elegant, innovative furniture designs which not only look beautiful, but minimise the impact on the world around us.

They come from all over the world, but are based in our Design Centre located in a quiet Lancashire village just outside the Ribble Valley. Our dedicated facility is over three floors which include studios, a materials test centre and prototyping lab.

ENVIRONMENTAL

All Environmental Data can be found on product LCA reports.
LCA reports can be downloaded from the Group Portal and Website.

SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

Reduce
Reuse
Recycle
