

Phoulds

Design by Allermuir

Elegance, poise and comfort were the words that guided the development of the Phoulds seating range. The development calls for the meticulous joining of two pressed plywood shells to create the chair's structure. The seat structure is then lined

with a distinctive six panel upholstery style that provides the user with sumptuous levels of comfort. In addition the outer shell can be fully upholstered as an option. The range offers the diversity of both high and mid back shells and two distinctive

support frames. The style of the chair makes a strong visual statement whilst its fine detailing and traditional material selection make it an excellent choice across workplace hospitality and retail environments.
